Handprint Butterfly

Supplies

- Paint
- Shallow trays or plates
- A4 Paper
- Butterfly Body Template
- Googly eyes
- Glue
- Felt-tip pen
- Wipes

- 1 First, fold your piece of paper in half, lining up the short sides of the paper. Then open it out again and lay it flat on the table.

- 4 As butterflies are symmetrical, this means that the other wing needs to look exactly the same! To do this, use your other hand to make 2 or 3 handprints of the same colours and positions as the first wing. Allow the hand prints to dry.

- 2 Next, spread some paint into one of the plates or trays. Gently press your hand into the paint and then onto the paper, with your thumb next to the fold line.

- 5 Next, carefully cut out the Butterfly Body Template and stick it along the fold line between the handprint wings.

- 3 Then, wipe/wash your hand clean and choose a different colour of paint. Use the same hand to make another handprint - just under the first one, again with the thumb near the fold line. You can repeat this with a final colour if you like. One wing is now finished!

- 6 Finally, stick on 2 googly eyes then draw a mouth and 2 curly antennae.

Handprint Butterfly

Supplies
