

## Reconnecting with Friends - KS1 Activity

*WALT: know what makes a good friend and find ways to be a good friend while we have to carry on social distancing.*

Look at Jigsaw Jenie. What is she doing? Draw out ideas about how Jigsaw Jenie cannot hug them in person so needs to give her hug in a different way. What other ways could we send a hug to someone we care about (perhaps a friend) to make them feel better, without touching them?

Look at the following pictures of children together and ask children what they think makes a good friend. What can they see friends doing in the pictures that are part of being a good friend? Can we still do all the things that we can see in the pictures?

Talk about ways we can still play with each other and be good friends. Some people may still not be able to see their friends as they are still at home or are in another group!

Jigsaw!

What makes a good friend?
